ANNUAL REPORT

OF THE

AUDITOR OF THE STATE

OF

NORTH CAROLINA

FOR THE

FISCAL YEAR ENDING NOVEMBER 30, 1918

RALEIGH
EDWARDS & BROUGHTON PRINTING CO.
STATE PRINTERS
1919

LETTER OF TRANSMITTAL

Department of the State Auditor,
Raleigh, N. C., December 1, 1918.

To His Excellency, T. W. Bickett,
Governor of North Carolina.

Sir:—In obedience to the law, I have the honor to hand you herewith the annual report of the Department of the State Auditor for the fiscal year ending November 30, 1918, showing the financial transactions and conditions of the State.

Soldiers Home and Pensions

The legislature of 1917 appropriated for the maintenance of the Soldiers Home the sum of $42,500 annually, also $1,000 a year for the purchase of uniforms for the inmates, and $250 a year for the upkeep of the graves at the Confederate Cemetery, making a total for the two years, 1917 and 1918, of $87,500. The total expense of the institution for 1917 was $42,362.12, and for 1918, $44,514.30, making a total cost for the two years of $86,901.42, leaving a balance on hand of $598.58.

During 1917 there were 209 inmates at the Home, of whom 25 died and 38 left. In 1918 there were 188, of whom 30 died and 20 left.

The passing of each year finds the Old Boys in Grey getting weaker, more feeble and more helpless, more of them bed-ridden and requiring hospital attention. Our hospital is sorely taxed at times to accommodate those needing hospital treatment. As the increased hospital attendance requires increased medical attention and increased nurses, with the present prices of materials and provisions, it is urgently requested that a substantial increase be made in the appropriation by the Legislature.

For the pensioning of the Confederate soldiers not being cared for at the Soldiers Home the Legislature has appropriated $575,000 annually. This increase and the modification of the pension laws has enabled us to materially increase the amount paid to each

pensioner, as is shown by the following: 1st class, $85; Widows' Special, $85; 2nd class, $75; 3rd class, $55; 4th class, $45; Widows, $45.

TAXATION

The method of handling this, the main branch of revenue to the State, is sorely in need of revision, to meet the conditions prevailing at this time. In many respects it is antiquated and woefully insufficient for our needs and requirements.

There is a lack of unanimity in the laws for levying and collecting the taxes, in that those departments affected by taxation legislation are governed by laws not in conformity with similar class of legislation affecting other departments. In fact, in some instances, it amounts, practically, to conflict of authority between certain departments.

This department receives numerous reports from the various counties in the State, involving valuations of several millions of dollars, which reports or returns we are compelled to accept as rendered to us, as sufficient provision has never been made to enable us to verify same. The small appropriation to this department is not sufficient for us to employ one competent man to travel. There should travel from this department, to examine and check records and accounts in the various counties, from three to five experts, thoroughly drilled in the affairs of the department, with special regard to tax matters, whose duties should be to see that returns are made promptly and that the State's interests are properly represented and looked after. There are one hundred counties in this State, and the State has not one representative in any county, who is not a county official, elected in the county, and whose first interests are naturally with his own county.

PERSONNEL

The Legislature of 1907 adjusted, or rather revised the salaries of certain officials and employees of the State.

The salary of the State Auditor has remained the same as fixed at that time, $3,000.00 per year.

The Legislature of 1911 fixed the salary of the Auditor's Chief Clerk at $2,000.00, and of the Tax Clerk at $1,500.00 per year, which salaries have not been changed.

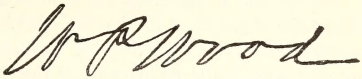
The heavy tax on the salaried employees of the State for the past two years, the present conditions, and the outlook for the future, certainly call for some action on the part of the Legislature in readjusting the salaries and wages of the State employees.

All departments of the Government, and the various industries, have increased the compensation of their employees, to try and meet conditions.

As the Council of State, during a recess of the Legislature, acts in the capacity of Directors of the State's affairs, subject to the approval of the Legislature, and as they are familiar with the duties and responsibilities of the various employees of the different departments, being in daily communication with them, and therefore are better informed and probably better qualified to act intelligently and with justice to all interested, the Legislature might authorize them to act in matters of this kind. The last Legislature provided in this manner for the adjustment of the salaries of the employees in the Treasury Department. This might be made to apply to the other departments.

The salaries of the Constitutional Officers of the State (that is those composing the Council of State), may not be changed during their term of office. The present Legislature should act in the matter of the salaries of these officers, if the incoming officers, two years from now, are to be benefited. As the duties and responsibilities of all these officers are practically the same, there does not seem to be any reason why there should be any discrimination as to the salary paid to each.

Respectfully submitted,



State Auditor.

(*Extract from Letter of Transmittal of State Auditor's Report for 1912.*)

TAXATION

The present methods and practice of assessing real and personal property for taxation demand an immediate and radical readjustment in order that the State shall receive its just benefits.

The practice of listing property at a ridiculously low rate of valuation and then allowing the counties to levy any number of special taxes to meet the requirements of the counties for their local government is unjust and unfair, and is depriving the State of revenue which justly belongs to it.

A properly assessed valuation for taxation of the property in the counties would mean a sufficient income to the county for the conduct of its

affairs, an equitable receipt to the State for its taxes, an elimination of all special tax levies, and a reduction of the regular rate of tax.

This of course cannot be put into effect until all of the property in all of the counties has been scheduled at its true value and a rate of tax agreed upon.

When this is done the State is ready to proceed to put these values into effect in all of the counties at once.

The work of scheduling this property should be done independently and apart from the regular tax listers and assessors in the counties, and should have absolutely no connection whatever with their work; in fact, the work of scheduling this property should be in charge of a State Tax Commissioner, with such assistants as he may deem necessary. These men so employed should be held accountable only to the State of North Carolina, thus removing local influence as far as possible. The counties should be made the unit for taxation instead of the townships, as is now done.

The work should not be rushed through with, but a sufficient time should be given to each county to make the work thorough and the schedule complete.

This system or method has not only been worked out in other states and adopted with most satisfactory results, but has been applied to some of the counties in this State to such an extent as to prove it to be entirely practicable for us.

The method of collecting and reporting the special license taxes, under Schedules B and C of the Revenue Act, is unreliable and unsatisfactory, and means a loss to the State of thousands of dollars every year which by all rights should be turned into the State Treasury.

A thorough system should be prepared by which the State would have on file a complete list of all parties liable for special license tax in each county, certified to by the sheriff as being correct and complete. This list should be corrected and kept alive and up-to-date, and the sheriff in each county should be held accountable for the prompt collection and payment of these licenses into the State Treasury.
